

## **Corrections to Modoc County WMG minutes 1/22/03**

Kate Haas, Modoc County Ag. Dept. requested the following corrections:

- 1.) Rob *Wilson* will be one of the presenters at the tall whitetop workshop scheduled to take place this spring.
- 2.) Under 'Weed data update', Kate was not suggesting that WMG fund another Initial Attack Team. She suggested that GPS loggers be placed in all spray rigs and said that if another team was funded to just collect data on weed locations and not treat, these workers need to be educated to accurately identify weeds.
- 3.) Page 2, last paragraph on 'Weed data update', Kate stated that Modoc County has a contract with Cal Trans to ***treat*** Lassen County highways, and to her knowledge, they do not have a contract to simply survey weed infestations.
